OceanGlider/EuroSea Glider Best Practice meeting minutes

Date: September 9 2020, 16:30 - 17:30 CEST

Location: online meeting

Participants:

Juliet Hermes, University of Cape Town, juliet@saeon.ac.za

Emma Heslop, IOC UNESCO, e.heslop@unesco.org

Jethan d'Hotman, SAEON, jethandh@gmail.com

Matthew Palmer, NOC, rolm@noc.ac.uk

Pierre Testor, LOCEAN, CNRS, testor@locean-ipsl.upmc.fr

Soeren Thomsen, LOCEAN, CNRS, soeren.thomsen@locean-ipsl.upmc.fr

Agenda

1) Brief summary of past actions (Emma)

- loose BP glider task team has been established at EGO meeting in May 2019
- first structure of glider BP paper building on observation lifecycle, deployment,
- writing of sections has never happened

2) Progress on chapter 4 - DM/QC (Pierre, Soeren)

- discussion: very detailed already, might be too long for this first overview paper, but good starting point for more detailed individual Ocean Best Practice contributions, which could be linked to this paper
- possibly bull-it points style: gold standard, (not) acceptable practice etc

3) Discussion on strategy to finish the glider best practice paper (all)

- discussion whether objective of one overarching glider BP paper might be too ambitious
- agreement by all participant: more clear introduction needed to finish the other chapters

Action items

- write introduction (Emma, Matthew, early October 2020)
- DM/QC chapter will reviewed by the GOOS steering committee for gliders (early October 2020)
